Assessor Comments Not often you get to stand over a line of very even well bred Angus heifers of this size , A great opportunity presents its self to Secure one lot of 50 or three lots totaling 150 that are one mark vendor bred heifers out of the quality breeding grounds of the New England. The stony station herd is a foundation of Stud Hazeldean cows that was started back in the year 2000, Since then quality AI Sires such as Rennylea G240, Gar Prophit, Aryvale Bartel, Temania Berkley and many others have been used to produce this great line of females. Heifers are soft easy doing types that will grow into great future breeders. A great commercial article on offer that will be priced to sell, only due to being surplus to needs. Very Quite easy to handle heifers with Temperament a key. Due to calve to home bred AI sires that are picked on LBW attributes. Heifers will be sold as a run out the gate. Quality Spring Calvers not be missed.
