Well handled cows

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A very smart run of exceptionally bred sound mouth EU Angus cows from a classed large self replacing Angus herd using top AI sires and leading Bongongo genetics. These cows have been joined to Bongongo Angus bulls. Cows are up to date with their health treatments and have just had 300kg weaners pulled off them in march. These are the classed in 7-8 year old cows and have been selected for structural soundness and fertility. Baltimore's breeding objectives focus on 400 & 600 day weight, positive calving ease, fats, IMF, high stocking rates and moderately framed cows. These cattle are bred to produce heavy feeder steers and fertile replacement heifers. Baltimore's large run of feeder steers left the gate last year at an average of 481kgs at an approximate average age of 14 months old. Some standard pink eye scarring but all cows can see.
Assessor	**Aaron Seaman (Level 1 Accredited)** Phone: 0488 915 315
Delivery Period	26/04/2024 to 02/05/2024 (7 days)
