Assessor Comments	Annual offering of first cross ewe lambs. Bare shorn and all health treatments up to date including Gudair vaccination for buyer preference. Sired by Deepdene Border Leister rams (Gleneith blood Super Borders) over medium-large framed Riverina and WA bred ewes. They have had a slow wet winter and have been in and out of the yards recently due to shearing around wet weather. These lambs are starting to bound away as the weather is warming and the feed is starting to grow and now having been shorn. Ideal to put away to add to your program or even fatten for the mature first cross ewe market. Young lambs that will bound away through spring with some extra feed and improved weather conditions to grow into productive ewes. Should you require any further information please call.
