Assessor Comments	Offering 16 Angus Heifers A/C Killawarra Park with extensive herd health and breeding history. These heifers have been running on improved pastures and would be ideal to carry to feedlot entry weights or appropriate weights to join to a bull of your choice with the hard work done with all heifers deemed sound for breeding, tested by Jason Hayes, Sonic Reproduction Services on the 03/09/2024. These quiet, young females are sired by multiple sons of Witherswood Reality N002 and Ayrvale Hercules H9 (please see full bull pedigrees in documents) have had a thorough treatment regime, having first and booster shots for the bulk of treatments, with their second Pestiguard shot being due imminently for those wishing to carry that on. Vendor is willing to give the heifers their 2nd Pestigard vaccination on dispatch if requested by purchaser. Please note vendor has another lot of 19 heifers on offer in the same sale. See photos for full satisfaction. Grass fed only, antibiotic free.
