Assessor Comments: AW Galpin & Co present 29x29 cows with exceptional young Feb/March drop calves at foot. The cows averaged 597.3kg full at assessment and the calves averaged 108kg at assessment. These cows year in and year out have produced phenomenal calves that have grow out into exceptional weaners. This consignment has had very little feed due to no rain and will push forward very well going on to feed. If you're looking to start a new herd or add to an existing one, these cows and calves will do the job for you.
