Temperament

Yards	Crush	Paddock
Docile: 6 head Quiet: 50 head Slightly Stirry: 20 head Stirry: 2 head	Quiet: 30 head Slightly Stirry: 42 head Stirry: 6 head	Temperament not assessed in Paddock

Buyers these steers were good to handle, draft and assess. Approximately half the steers stirred up in the crush getting weighed and pre treated, which is to be excepted for a fresh calf off mum. Once let out of the crush they walked back into the mob and were settled. They were good to photo and video and work well through the yards. Only a couple of steers stirred up in the pound and approx third of the mob were flighty in pound, but to be expected for a calf fresh off mum with no weaning.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles
Assessor Comments	Buyers please consider this soft line of 78 (2 decks) crossbred weaner steers. Weighing from 182-398 kgs and average 268 kgs at assessment or approx 257 kgs at delivery. The steers were pulled off their mothers and had a 14 hour yard curfew overnight before assessment, after assessment they were returned to their mothers and will remain in holding paddock until the night before delivery and then weaned off their mothers. These steers have been pre treated with Dectomax pour-on to assist with movement into tick free areas, the cows were also treated with Dectomax. Buyers please refer to my photos and videos as part of my description. Please note there are a small % of steers showing more content in their crossbred breed type and that the steers will not be fully weaned or educated at delivery. These steers are renowned for their performance and i have full confidence they will grow out to their reputation and will be easy to wean and educate. PCAS eligible, vendor bred. $/head.
Assessor	**Brock Palmer (Level 3 Accredited)** Phone: 0458 800 047
