Assessor Comments Buyers, an opportunity to secure 40 predominately Angus Cross Feeder steers that have a reputation for performance and meeting market specifications. These steers are bred from quality large frame Droughtmaster cows that have many generations of GLENLANDS Droughtmaster genetics. They are sired by top quality ANGUS bulls that were selected for confirmation, carcass & temperament. These steers had a live weight range of 418kg - 510kg at assesment and will have a delivery weight of 456kg They are well grown steers that have plenty of length, bone, weight for age and present in strong forward store condition . 40 steers were mouthed at assessment and they all presented with milk teeth. The Denby cattle also have a solid reputation for performance & grading on both grass & grain grids with many repeat buyers securing the cattle when offered. They are TEYS GRASSLANDS ACCREDITED or eligible for any other grass-fed programs & have had 7 in 1 booster needle and three germ blood.
