Cattle were great to handle moving calmly through the yards. They loaded easily into the force, race and crush. A small % were nervous while mouthing and on the scale platform.

**Handled With** Bikes , Dogs , Horses

**Assessor Comments** A quality line of EU Angus and Angus cross steer weaners. Ideal backgrounders for export feeders or to finish to quality kill cattle. Showing good bone and growth for age. Cattle are fresh in the coat. Steers are all by angus bulls with approx 19 showing angus/angus traits with the balance being 75% angus with some santa influence. The steers were great to handle through the process with a small % nervous in the crush while weighing but fine in the mob. The steers were weaned on Saturday 18th may and remain in the yards on hay. They were locked off hay on water at 4.00pm Sunday prior to assessment monday morning. Note a couple have white underneath. Please view photos and note same vendor has another lot in this sale.
