| | These steers only get handle by one individual so they do react when strangers handle them - in saying that they handled extremley well well in the yards while being weighed, filmed and photographed - they were very good to handle through the yards. 4 steers moved a little while being weighed and exited faster than the rest and 1 steer was a little head up in the yards while being filmed. Generally very good to handle. | | |

| Assessor Comments | An exceptional line of feeder EU Angus steers. These steers have grown out well given the very dry Autumn / winter. They are excellent feeder steers, showing great length and depth of body. They would grow out to excellent bullocks Vendor has another 34 Angus, EU steers in this auction on his other property at Boralma Vic. |
