Assessor Comments	Attention all restockers, today we have to offer 18 vendor bred Ultrablack Heifers. The Heifers are currently being weaned in the yards and being fed on grassy hay. The Heifers are sired by Burenda Brangus bulls and this is seen throughout their quality. They all presented well and handled through the yards with ease. On assessment the Heifers averaged 200kg on delivery and showed great shape and frame for age. These Heifers will suit anyone's program and will make tremendous future breeders. Please do take note that Vendor also has Steers in the same sale from the same location. These cattle are located in the Tick area however have had a pretreatment but will need clearing before moving in to the clean zone this is up to the purchaser.
