Heifer were weaned 2 weeks prior to assessment. They are a little bit flighty as a mob when applying pressure and moving them around the yards. They flowed through the round yard and race well. 14 heifers were agitated in the crush when being weighed. Being weaners, they will benefit from additional education and handling.

2 Head	white on navel

Assessor Comments: A quality line of one-mark Mundarra Blood Angus heifers. These heifers are growing out well and all have the frame to make a healthy joinable weight in the spring. It is worth noting that the vendor has retained NO heifers this year. The Glen Valley cattle are bred to be medium-large framed females with a herd focus on high fertility and good milk. The Parfett cattle are renowned performers with sales of both steers and heifers always bringing strong buyer competition. A tail was removed at assessment leaving a very even line for your competition. Please note the vendor also has 123 steers offered in the same sale.
