Vendor Comments	.

Temperament	Yards	Crush	Paddock
	Quiet: 144 head	Quiet: 144 head	Temperament not assessed in

Steers have an excellent temperament, which was well noted through the weighing process and handling through the yards. Easy moving and quiet in nature. This is a credit to the vendor, for spending the time to educate these steers in the yards and in the paddock.

Assessor Comments	Buyers here is a great opportunity to purchase a good quality line of composite #4 steers, that have been drafted into lines. Organic certified, EU, USDA & GAP certified, "Wetlands" cattle are well renowned performers. All the hard work has been done with these steers and with recent rainfall these steers are on the move. Steers present in store to forward store condition with some steers still showing parts of their winter coat but are starting to shine up with freshening feed in front of them. They have frame and plenty of compensatory gain to be had. Ideal to be taken through to the heavier organic kill job, or put on summer crops/grass. Please note vendor has another two lots in the same sale, of differing weights.
