	Good Heifers to handle in the yards the odd one played up a bit in the crush. They had just been drafted off the cows. Typical weaners, overall well handled cattle

Assessor Comments	A tidy line of well bred Heifers that have a good start in life and are on the move. These Heifers have topped the Braidwood weaner sales in past years. They are in fresh condition and have the conformation to make for ideal breeders or alternatively go forward on grain or grass, they are out of big roomy cows there is a weight variance but this is age not quality related. Note due to the lack of yard space both the steers and heifers appear in the photos, The steers have blue ear tags and the heifers yellow, both are readily identifiable in the video. Note for breeders in Theileria prone areas , these Heifers have had exposure so would be carrying a degree of natural immunity. There is a lot of Steers from this breeder in this sale as well . There is also another two lots from the adjoining property also in this sale if the purchasers wish to make up trucks. We can organise local trucks if required.
