	Steers were good to handle during the assessment. An odd steer travelled quick through the weighing process, but settled once returned to the mob.

Assessor Comments	An EU accredited line of Hereford and Hereford cross steers from a reputable Northern Rivers breeding herd. Steers have been running on clover, rye and kikuyu grasses and are really starting to power ahead and should do extremely well for the next owner. Buyers please note that there was one steer treated at assessment for pink eye and five steers noted to have old pink eye scarring. Overall a nice line of steers that are ready to perform.
