Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 55 head | Quiet: 52 head<br>Slightly Stirry: 3 head | Temperament not assessed in Paddock |

Cattle were very good to handle in the yards and crush. Three heifers just would not fully settle or exited the crush quickly. They settled quickly back in the yard and were calm and settled while moving from yard to yard. See videos.

| Handled With | Bikes , Horses , On foot , Vehicles |
| Assessor Comments | A fair through to mostly good and very good quality line of vendor bred yearling heifers. They are 76% medium and 24% large frame heifers that range from Angus through to a soft Angus cross. The heifers were NSM but had access to a stag until 2 months ago and were vet preg tested at assessment. 54 head were Not Detectably Pregnant and one heifer was 8 weeks in calf and was injected to terminate the pregnancy. They suit to take to take directly onto feed for a range of high quality slaughter markets or as they have not had access to grain or antibiotics and are eligible for grass finishing programs. One heifer with a slight blue eye spot in both eyes - not considered detrimental. One heifer with innoculation lump on near side neck - see photo. They are located just south of Coolatai on the Warialda Rd and are easily accessible for any carriers running north and south. Note the liveweight purchase option available during the sale and their heavier sisters that are in this sale. |
