Assessor Comments	A nice line of 41 principally Santa and Santa X Hfrs, ideal to grow out and join at a later stage, cosign to a feedlot or grass fatten. Will grow out well to become attractive future breeders or fatten well, into heavy trade or export weights. Cattle that will do where ever they go. Glenalbyn and Munnabah bull used as sires are high quality bulls selected for docility, softness and high growth. All health treatments up to date. Buy with confidence. Highly recommended.
