Assessor Comments	A top quality line of one mark vendor bred Angus heifers. Vendor has been selecting quality bulls for the last 15 years. These heifers are sired by Cascade & Kansas blood bulls. Heifers show good confirmation and are all generally true to type and would be ideal to add to a herd in the future. Heifers were bred on the vendors property in the New England Region on NSW and have been doing very well with favourable season conditions since arriving. Grass fed. Vendor will not retain any females. vendor has treated heifers with 2ml of estrumate to ensure that heifers are free to join or fatten (Stag had access in November for a week to the mob)
