| Assessor Comments        | A great opportunity to secure 437 quality bred "Killara" Composite Wether lambs, Cloven Hills blood. The McLean family have been selecting top genetics from Cloven Hills, focussing on fertility, growth & type. The lambs display good shape and type for age and would be ideally suited to being shorn and feeding on for the trade / export market. Excellent chance to get evenly weighted 4 deck load of individually weighed 25-35kg lambs with a 3 hour curfew. |            |                       |      |
