2 Head	Old pink eye scarring in one eye

Assessor Comments

An Outstanding line of EU Angus PTIC cows that are a testament to the Ross's breeding program. Cows are large framed proven breeders bred from a foundation of quality Angus genetics including Wattle Top and Kilburnie Angus. cows were apart of a larger mob and are a genuine sale only due to being surplus to needs, Joined as apart of their normal program cows will commence calving in mid July for 8 weeks . Cows were joined to Kilburnie Angus bulls with high IMF indexing figures. Get above the game with quality Angus females that are proven breeders that offer a great opportunity to breed some replacement females from.
