Assessor Comments	Taunta 140 Second draft of Merino Ewe lambs June/July 2022 drop Average 30.1 kg LW, currently in fresh store condition. (A run out of the gate from 640 lambs in the line). Geranium seed is present on the wool on their legs, necks and Poll. The lambs are showing early signs of lice present and would recommend precautionary action upon arrival at their new destination. The top 40% draft of the Ewe lambs have been retained on property by the vendor for future breeders. Approx. 10% of the ewe lambs have some water stain in the wool on their shoulders. Buyers can put together large lines of one vendor bred one mark lambs. Bred out of Medium to Large framed Watervally Merino Ewes. The lambs have been mulesed.
