Assessor Comments
Buyers, a run of Angus X Angus PTIC 2nd Calvers, in calf to high indexing Wagyu sires. Weighing 420Kg to 580Kg average 512Kg at assessment. Cows were selected with high IMF and Fertility to purposely join to Trentbridge TBRFS232, TBRFS234 & Woodlands WDLFQ97 Wagyu sires. Joined for a 9 week joining 15th of October to 17th of December. Cattle run in a rotational grazing operation being shifted every 3-4 days allowing for extensive handling. An ideal article to put into an F1 operation with High Marbling Sires. These Cows had no issues calving as Heifers and successfully raised an F1 weaner. Please call for further information.
