Assessor Comments	FB Lock & Sons & the 1st Cross ewe lambs within their production system, need no introduction. They have, for many years now, produced an enormously high quality article that today forms the basis of many 2nd cross lamb production flocks across the localised regions of South Australia along with the Western Districts, Southern & Gippsland regions of Victoria. The lead of the FB Lock & Sons draft will be sold as a 'run out the gate". 330 of these lambs are being offered as 2 lots of 165. These ewe lambs will reach joining weight by years end if kept on similar feed quality to present. Weigh drafted from 38-54kg full weight, these ewe lambs present in outstanding, fresh condition. Structurally they are extremely strong, standing on good bone with length of body, depth & clean open faces. They are very even in type & carry typically clean, stylish 1st cross lambs fleece. All health treatments & boosters have been applied & foot health is 100% clear after the recent independent inspection.
