Heifers responded well to pressure. Quiet to handle and move freely with human pressure.

Handled With: Bikes , Dogs , Horses , Vehicles

Assessor Comments: Angus X Angus hefiers PTIC to a LBW Bongongo Angus bull. These heifers have maturity, frame and are carrying ideal condition for an early spring calving. They have been joined from the 26-11/15-01 for a 7 week calving window. These heifers were quiet at purchasing and with regular human and horse interaction temperament is not an issue. LBW Sire selected was Bongongo R113 - NGXR113. They were PTIC on the 03/04 and given a 7 in 1. The dry heifers (2head) were removed and sold following preg testing. An even line of medium to large framed future breeders with their whole lives ahead of them. Ideal to start a herd, add to an existing base or for a trade to calve down and sell with a calf at foot in the spring. Vendor is offering another line of 7 PTIC Angus hefiers of the same genetics in today's sale.
