|---|---|---|
| Quiet: 12 head<br>Slightly Stirry: 17 head | Quiet: 12 head<br>Slightly Stirry: 17 head | Temperament not assessed in Paddock |

Cattle have been well handled and were easily moved and weighed whilst assessing. These heifers have absolutely no malice in them, but are generally active whilst being handled. They are likely to run through open gates in yards but quickly settle once no pressure is on them (refer videos). For any further clarification on temperament please call assessor.

| Assessor Comments | On offer are 29 Reiland blood Angus Heifers that were PTIC in February to Bongongo Q183. This line of heifers are to commence calving early August for 8 weeks. Females are predominantly in forward store order with moderate frame but still display plenty of depth to top up. Vendor purchased adjoining property at the start of 2023 along with the cattle on the place. So heifers were bought directly account the breeder whose herd was based on Reiland Angus genetics. In this line there is 1 vendor bred heifer with a yellow ear tag. Vendor is willing to re-preg test heifers on delivery at buyers request. A good line of young females in their working clothes that show good genetic merit. |
