Assessor Comments: An attractive line of young wether lambs with depth and bone that have the capacity to mature into a medium framed lambs/wethers. They would be ideal to take on as wool growers with tremendous soft stylish long stapled wool (of the 130 lambs handled some water stain was noticed). They also have the potential to grow into trade/export lambs. Lovely thin skinned lambs with a modern merino outlook that allows these lambs to remain un-mulesed. Please note that there is 820 lambs in the 2nd draft of these woolly wether lambs with this lot of 410 being a run out of the gate. # All lambs will be crutched pre -delivery . # Of the 130 Lambs handled 10 lambs had soft wether horns). # Note - This line of 410 lambs represents part of the 2nd draft of a large line of wether lamb # The Vendor has 3 lines of these Woolly Wether Lambs available in this catalogue.
