Found these steers very relaxed and easy to handle, considering only been weaned and educated recently, odd animal did get excited in race and crush, but quickly settled once with others in the mob, majority walked of out crush quietly.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Assessor Comments A healthy group of #2 steer weaners that are ready to rapidly bounce ahead on the right feed, they have good frames without excessive weight. I must mention, even though a large number are marked as having horn, it is only weaner buds as can be seen in photos and video. Only saw 3 with horn approx. 12cms. Majority are greys including grey brindles and dark greys being 60%, 26% honeys, 10% reds, 4 % blacks. Very relaxed cattle to handle with only odd getting excited in main yard but soon settled once pressure was released same in race and crush. Mainly 6/10 months of age with the very odd older. Please note only 4 steers 250/280kgs with balance being 150/250kgs. Vendor will deliver all cattle to Sugar Bag yard ready for purchasers delivery on 1st November a nice B-Double load. Vendor has heifers in same sale. All steers & heifers have been pretreated with Iverlab P.O. on 25/10 for tick eradication.
