Assessor Comments	21 Angus heifers PTIC to Alpine Angus Special S22 and Alpine Angus Quarterback T292 for mid February calving for 8 weeks. The heifers are 2.5 years old and are Langi Kal Kal Angus bloodlines. They are excellent quality, have good body depth and would be an ideal addition to a potential purchasers breeding program. The vendor has selected the Alpine Angus bull for easy calving, good muscle shape and high growth. Please note the vendor has 2 lots being offered from the same property in the sale.
