Assessor Comments	Buyers, on offer are a good quality line of 38 Weaned Hereford steers for your consideration. These steers would be ideal to background to trade or heavy feeder weights suiting all domestic markets. Steers would be perfect for an oats crop or pasture and are recently hitting high gains due to a dry summer but have now had access to fresh feed for the past five weeks. This group have been through a full weaning program, of which have been well handled and educated and display a faultless temperament. Please note, steers carried light buffalo fly at assessment. The Bailey Hereford cattle are well known through saleyards and feedlots in southern Queensland and are not to be overlooked. Please see photos and video for further satisfaction.
