Found these heifers very relaxed and easy to handle considering only being weaned and educated recently. Odd animal did get excited in race and crush but quickly settled once with others in the mob. Majority walked of out of crush quietly.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	4 decks of good average quality #2 heifers. Consider quality good enough to retain as breeders or use as turnover cattle. Buyers please be aware that even though they have not been station mated they have been running as a cow and weaner mob with males among them. Even though I have stated that there is horn in this mob, in reality it is only weaner buds, a very small number have actual horn approx. less than 12 cm as can be seen in photos and video. Was concerned that some age brands look as #1's but vendor assures me is only smudged as rained the day he was branding. Heifers were branded April 22.
