Assessor Comments	Attention all backgrounders, today we have to offer 42 vendor bred Ultrablack Cross Steers. The Steers are currently being weaned in the yards and being fed on grassy hay. The Steers are sired by Burenda Angus and Brangus bulls and this is seen throughout their quality. They all presented well and handled through the yards with ease. On assessment the Steers averaged 227kg on delivery and showed great shape and frame for age. Please do take note that Vendors also has Heifers in the same sale from the same location. This is a quality line of coastal bred steers that never disappoint. These cattle are located in the Tick area and will need clearing before moving over the tick line vendor has pretreatment to help with this. On assessment it was noted 1 Steer with a red tinge through their coat.
