Craigie Station cattle are very well handled and worked quietly through yards. This was the first time these heifers had been worked through this set of yards as they were weaned in another set of yards and they work well during the assessment process. A small % of heifers became unsettled when confined but were quick to resettled when released back into mob.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A line of 76 vendor bred Wagyu cross weaned heifers presenting in store condition that had an average weight at assessment of 178.3kg after a -5% curfew. Weaners are out of very good quality Glenlands blood Droughtmaster heifers by Wagyu bulls. Please note; % of heifers were dehorned at weaning and have not healed fully. Same vendor has brother lot in this sale.
