Assessor Comments This line of steers have been weaned in December, well handle and supplementaryfeed hay. They're as quiet as you could hope for and in ideal condition to tip out or start on feed being all frame forward store condition. Ideal steers to grow into heavy feeders for the winter or take through into grass steers. Have been using Pathfinder bulls for a number so years and a small percentage of Bull Oak Well bulls. These steers come highly recommended and will preform in any country. Vendor happy to deliver to Mt Compass Saleyards.
