Assessor Comments	Annual sale of the complete drop of Buronga Pastoral's vendor bred Angus x Angus steers. Out of large framed Te Mania blood dams by Bongongo sires. Weaned on the 06/05 and will remain in the yards on hay, silage and straw until delivery. These steers have averaged 265kg after 10 days of weaning and a 6 hour curfew. They present in their winter coat but have frame and adequate fat cover while still offering compensatory weight gain on quality feed making them ideal to put away for the promising feeder and kill markets. 100% grass fed and antibiotic free allowing access into most markets. Ideally weighted and given current market prices they present opportunistic for a trade. Weaned and with their health treatments up to date they will be ready to perform from when they arrive. They have been well educated through the yards (refer video) and will be run through again before delivery. Should you require any further information please call.
