Assessor Comments	For sale: 220 high-quality composite wether lambs from the September to mid-October drop, all in exceptional condition. These lambs are primed for growth and just need shearing to continue thriving. They are currently on a feeding regimen that will ensure they grow into heavy, well-conditioned lambs. Many are already at a desirable weight and are ready to move into the next stage of development.This is a full drop of the wether lambs, with each one carefully weighed, and a small tail removed for quality control. They've been grazing on nutrient-rich bean stubbles and receiving supplementary barley trail feed, which has set them up perfectly for further development in a feedlot environment. This presents a fantastic opportunity to secure a line of feeder lambs with a solid foundation, ideal for finishing into heavy, market-ready animals. Don’t miss out on these outstanding lambs!
