Bucket Reared Heifers, reasonably quite and easy to handle. One had a bit of go about it in crush and yards.

| Handled With | On foot |
| Assessor Comments | A small line of neat forward to prime heifers. These heifers have been bucket reared and are reasonably quiet for their age. |

| | |
|---|---|
| | These heifers would make ideal vealer mothers, with their dairy background providing what should be large frames and a quality milk supply. These heifers are showing great cover and are in ideal condition to join to your choice of bull, or feed on and target heavier weight categories to kill. They are well and truly on the do and packing the weight on with ease. This is an ideal opportunity to secure a small line of forward condition heifers with plenty of shape and potential about them. |
