These Heifers were good to draft in the pound and handled well through the yards. They were drafted twice on the day of assessment. They were a bit sticky to draft the second time & 2 heifers stirred up slightly, however the mob were still well mannered overall.

Handled With: Bikes , Dogs , Horses , On foot

Assessor Comments: 52 head of NSM, No.3 & No.4 Heifers. These Heifers are predominantly of a Droughtmaster type with there being 7hd showing characteristics of a different cross. 29 Red, 21 Honey & 2 Creamy. There is 1 Heifer showing Lantana scarring, i have included a photo of this. Also 9hd showing minimal fly bites. Vendor has had them in a paddock rotation program and has been moving them using Dogs and a Motorbike. These Heifers would suit a feedlot, trade or a small Breeder operation. The Vendor wishes to advise that he will give them a Tick Pre-treatment after the sale and will have them cleared by an accredited person if the Purchaser requires Tick clearance to go into a Tick free area. Vendor to pay Pre-treatment and Clearing costs.
