Assessor Comments	A very good line of vendor bred Angus Heifers weaners, very quiet to handle, and in good store condition. Tops of the drop of the autumn drop calves, no heifers are retained from this drop of calves. Boonaroo and Granite Ridge blood, 317 kg curfewed weight, Heifers that will grow into a great line of future breeders or grow into the domestic feeder markets. Vendor always selects Bulls for carcass, growth and temperament. There is 1 heifer with a white stomach as can be seen on the photos,Vendor also has 55 Angus steers in the same sale that average 303 kg curfewed weight and would make a neat B-Double; load.
