	These Heifers have a tendency to run when first put in the yards. A few did not settle and were a bit stirry in the yards but more trying to get away rather than take you on. One did not enjoy the experience and was constantly looking at you , to be fair we did run them in & start pregnancy testing. They are Heifers that are easier to handle if left to settle first. Overall Heifers that are best handled by experienced operators.
Handled With	Bikes , Vehicles

Assessor Comments	A tidy line of well bred NSM Millah Murrah blood Heifers that are going forward and are the ideal weight and condition to join now. Alternatively they will finish very quickly on grain or grass. We pregnancy tested this lot to make sure they were not in calf. As you can see by the videos they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. Inspections prior to sale welcome.
