| Preg Scanned? | No, this lot was not pregnancy scanned. |
| Assessor Comments | A well-bred line of 538 Merino ewes, April/May 2022 drop, from the renowned Gleeson family breeding program, which has been built on Pastora bloodlines for over 40 years. This long-term breeding focus has produced productive, fertile ewes with strong wool and maternal qualities, well-suited to a variety of grazing conditions. These ewes have been station mated and are due to commence lambing early April, presenting an excellent opportunity for buyers to secure a quality, proven breeding flock. This is a flock reduction from a deceased estate, and the ewes are in strong fat condition, ready to continue performing in their next breeding cycle. A great chance to acquire well-bred, genuine Merino ewes backed by decades of careful selection and management. |
