Steers were generally very good to handle, they are typical of station cattle used to big areas that like to run a bit at times. These steers should be no problems for most people with half decent facilities and half decent stockmanship, I would be more than happy to send to most of my clients, however if you want docile cattle these are not for you.

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
2 Head	Very slight blue eye

Assessor Comments	Good quality draft of "Yammatree" steers that look a nice even line, these steers were weaned 6 weeks ago and with change in season are just starting to get going weight gain wise and if shown the correct feed will steam ahead, all the hard work is done here ideal steers with plenty of frame to put weight on for a buoyant feeder market.
