Assessor Comments	Buyers please see a very good quality line of steers that would be ideal to feed for either domestic or export markets or finish on oats. These steers present in strong store condition due to a dry second half of the season the buyer should expect good compensatory gains. All genuine No.3 steers that come with a renown reputation of feedlot performance. These steers did show signs of having lice but have been treated with Cydectin should be clear of this by delivery. A percentage of steers did have some horn regrowth.
