Steers were excellent to handle at assessment. Flowed well through the race and crush system with very minimal fuss. Were also very good to handle in the back yards and through the pound draft with only the odd steer becoming agitated under pressure.

Handled With	Bikes , Dogs , Horses , Vehicles
Assessor Comments	Buyers, on offer, two decks of light weight fully weaned, very good quality Angus and Santa infused weaner steers. Steers show all the attributes to grow out to be very good quality feeders or bullocks. Steers are off first calf heifers and present in the right condition to power ahead given the opportunity. Steers were a pleasure to handle at assessment and worked very well through the yards and are being educated daily in the paddock right up until delivery. Buyers, two decks of very good quality, quiet, fully weaned steers that are well worth your consideration.
