Good	30%	Store	85%

Temperament

Yards	Crush	Paddock
Docile: 20 head	Quiet: 19 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Heifers were extremely quiet in the yards and were very good to handle in and through the yards. They were very good in and exiting crush with all but one standing quietly while being weighed. The cattle have been handled using Low Stress Stock handling techniques and in the paddock are educated to single wire electric fences.

Handled With	Bikes , Vehicles
Assessor Comments	A good to very good quality line of vendor bred Angus weaner heifers. They are 40% medium and 60% large frame and they are ideal to take forward to heavy domestic feeder weights with the top 60% also suitable as future breeders. They were yard weaned in late May and have been handled using Low Stress Stock Handling techniques and are extremely quiet. They are educated to hay racks and self feeders. They have had one shot of Bovilis MH + IBR vaccine (Treated 11/03/24 - Bottle ID 343190 Batch 2320801 Exp 12-2024). They are located just off the Barwon Highway approx 15 km west of Goondiwindi and would be easy to link into any carriers moving north or south. Very good quality Angus heifers that suit a range of high end markets or as future breeders.
Assessor	**Andrew Wilkie (Level 1 Accredited)** Phone: 0427 011 608
Delivery Period	17/06/2024 to 21/06/2024 (5 days)
