Assessor Comments	A very good three deck line of older cows and calves. These cows and calves are being culled for age. As per the assessment the cows are predominantly polled with the calves by polled bulls as well. These cows are sound and are doing a great job on their calves. Twelve cows were mouthed with all being sound and in normal condition for this aged cow. The different coloured tags one can observe in the photographs are just to identify different family members. The Murphy family have been concentrating on buying some of the best Santa Gertrudis genetics available and it is showing. Buy with confidence. Please note one day delivery window.
