Assessor Comments	Buyers on offer is 90 the lead draft of outstanding quality vendor bred EU Jbas 7 Bovilus MH + IBR pre treated Angus weaned steers weighing a tight 345-405kgs to ave 368.9kgs full at assessment. Steers present in forward store condition and have been grazing oats and improved pastures and doing very well and should keep doing so given the right opportunity. Steers are out of a very heavily classed EU Angus herd with bloodlines including Ben Nevis, Bald Blair and by Glenmorgan and Ben Nevis angus bulls that have been selected for growth and IMF and are showing good depth and bone and would be ideal to put onto crop with having a nice tight weight group to sell as heavy feeders or put into the grass fed kill market. Steers have been well received by all prior purchasers on grass and grain. Please note 2 steers were noted to have a small amount of white near cod a 1 steer with old pink eye scarring and 15 steers have ringworm.
