Well handled heifers did want to rush through a gate but stood well in large yard for media.

Assessor Comments	The "Branga Plains" herd carrys a great reputation within the cattle industry, they only buy bulls from the top end of the catalogue. They purchase bulls with above breed average EBV's for Growth and for all Carcass traits and Below average EBV's for Birth weight, Calving ease is an emphasis. These heifers present well and would bound ahead if shown some warm weather and crop. These heifers would be ideal to take on as replacement heifers or alternatively taken through to feeder or MSA slaughter weights, which is what these heifers would normally be programmed for. Please note several blue eyes in the mob. Not considered detrimental just due to a bad pink eye season.
