Stirry: 2 head	Stirry: 4 head	Stirry: 2 head

While these heifers have not been over-handled, they move freely through the yards. Predominantly managed with horses and dogs, they are respectful and easy to handle.

Handled With Bikes , Dogs , Horses , On foot , Vehicles

Notable Traits

	Traits
1 Head	Small white flank - photo attached

Assessor Comments 25 Top-Quality PTIC Heifers An excellent opportunity to purchase vendor-bred heifers that tick all the boxes: proven genetics, quiet temperament, a short joining period, and spring calving (due July/August). These heifers are up to date with all animal health treatments, including drench, 7-in-1 vaccination, and two doses for Pestivirus. A small presence of buffalo fly was observed, though no irritation was noted. Heifers averaged 491kg at assessment following an overnight wet curfew. These heifers will be an asset to any breeding operation.
