Assessor Comments	An excellent line of PTIC Angus Cows. Proudford Ag have been purchasing bulls off Reiland for the past 15 years their focus has been on positive fat, low birth weight, 400 & 600 day growth. These cows are classed in breeders that have reared a calf every year. Due to seasonal conditions they have decided to sell. The quality of the genetics shows in these cows which are of good frame and in ideal condition for this stage of the pregnancy. They would be an asset to any Angus herd, ideal cows to top up prior to calving giving the purchaser the option to run on and get a few more calves or an excellent opportunity to trade.
