Assessor Comments	The chance to purchase well bred Poll Hereford steers that present in store condition after spending the winter in native grass country or limited access to oats. They should really take off, if put onto better feed. Steers are healthy and would be ideal to grow out or go into a feedlot. Vendor has been breeding for good pigment around eyes, bone and muscling. British bred cattle are hard to find at present and these are well known cattle that will perform. 3 steers were treated for blight or pinkeye at assessment and will be retreated at delivery if needed, any steer affected in both eyes will be removed at delivery
