	Quiet: 20 head	Quiet: 17 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

These steers were easy to handle in both the yards and crush.

Handled With: Bikes , Low Stress Stock Handling© practices (4/11/09) , On foot , Vehicles

Assessor Comments: A growthy line of black baldy steers that are ideal feeders. These steers are quiet, well grown and on the push forward. Weight gain average on the OptiWeigh system shows a gain of 1.1kg/day in what was a tighter feed period over the later end of summer with a lack of rain. With plenty of compensatory gain to be made this line of black baldies they will make great feedlot or grass fed margin makers. Also in same sale 27 Angus steers from same vendor.
